

Reagent Guides

The reagent guides purpose is to encourage chemists to choose a 'greener' choice of reaction conditions. The guides aim to achieve this by providing transparency through the use of Venn diagrams in addition to improving understanding by discussion and up to date references.

How to access Reagent Guides?

1. Go to <https://www.acs.org/content/acs/en/greenchemistry/industry-business.html>
2. Click on "Reagent Guides Released to Public"
3. Register with your e-mail address and log in
4. Explore reaction substitutions and Venn diagrams for preferred reagents.

Reagent Guides

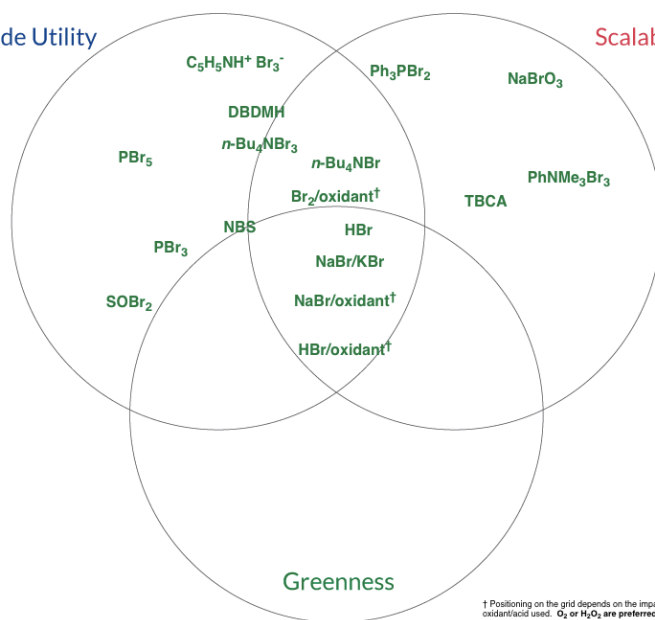

Venn Diagram

Wide Utility

Scalability

[†] Positioning on the grid depends on the impact of any oxidant/acid used. O_2 or H_2O_2 are preferred oxidants.
